

AUTOMATION

INDUSTRIAL TEST AUTOMATION

INNOVATIVE AUTOMATION SOLUTIONS

APPLICATION:

Automated production & handling systems
Robot-based and indexing machines (BLT, EOF, FT)

INDUSTRIAL TEST AUTOMATION

Automation plays a crucial role in today's industry. It aims to optimize and simplify processes by minimizing human interventions and instead employing machines and systems to accomplish tasks. We offer the opportunity to automate both manual handling of test systems and to develop fully automated rotary indexing systems, relying on customized solutions tailored to meet individual requirements.

AUTOMATION SOLUTIONS TAILORED TO YOUR REQUIREMENTS OVERVIEW OF OUR MODULES

Our wide range of industrial (test) automation solutions offers individual paths to optimize your manufacturing processes. From expanding existing test systems to implementing complete industrial automation lines to developing highly complex systems - we support you with our NOFFZ experts. For various requirements, we have developed a modular system that reflects the different levels of automation and is flexible and adaptable.

> MODULE 1: BASIC AUTOMATION

Our industrial (test) automation solution offers an innovative expansion possibility for existing test systems. With the Basic module, we enable automation by integrating a portal, stage, or robot. This approach optimizes your existing workflows by reducing manual processes and increasing efficiency. By seamlessly integrating our automation technologies into your existing infrastructure, you maximize your investment and open up new possibilities for improved performance.

OVERVIEW OF OUR MODULES

› MODULE 2: AUTOMATION SYSTEM

With our Advanced Automation solution, we offer full automation of your manufacturing processes. Our rotary indexing machines and manufacturing plants enable efficient and reliable production by ensuring a seamless sequence of work steps. From material supply to final assembly, these systems enable smooth operation and maximize production capacity. With this module, you are ready to take your manufacturing to a new level of efficiency and performance.

› MODULE 3: PROFESSIONAL AUTOMATION

Our Professional Automation offers highly specialized solutions for demanding requirements. These solutions are designed to tackle even the most demanding challenges and provide the highest level of precision, efficiency, and reliability.

EXPERIENCE GLOBAL EXCELLENCE IN TESTING & AUTOMATION

At NOFFZ Technologies, our dynamic innovation and unwavering commitment to customer service have made us a global leader in testing & automation systems. With a worldwide network of locations in USA, Mexico, Germany, Hungary, Serbia, and China, we provide local expertise and prompt support to industries such as automotive, telecommunication, smart homes, medical technology, and semiconductors. Our market-leading technologies, combined with our international team of experts, ensure the successful implementation and operation of our cutting-edge solutions. Experience global excellence in testing & automation with NOFFZ Technologies today.
